

# FIELD CLOSURE

Field closures are implemented to ensure the safety of players and the preservation of playing surfaces. Decisions are based on current field conditions, weather forecasts, and recommendations from facility managers or local authorities.

#### Policy:

- Fields may be closed due to weather-related hazards (e.g., heavy rain, lightning) or unsafe conditions (e.g., standing water, poor visibility).
- When a field is closed, no activities are permitted until further notice.

#### Procedure:

1. Notification: Closures will be communicated via email, team communication through TeamSnap, Managers through group chat, our website and social media.
2. Timing: Decisions will typically be made at least 2 hours before scheduled activities, but may occur sooner depending on evolving conditions.
3. Rescheduling: Coaches and teams will be notified of makeup dates or alternative arrangements, if applicable.

We appreciate your cooperation in prioritizing the safety of our players.
